MADHUMITHA CHALLA

IT PROFESSIONAL | CLOUD MODERNIZATION | DIGITAL TRANSFORMATION | DATA SYSTEMS

Melbourne, VIC | +61 468 934 292 | rchmadhumitha@gmail.com | linkedin.com/in/madhumitha-challa | AWS CCP

PROFESSIONAL PROFILE

Enterprise IT professional with 3+ years of hands-on experience at Cognizant Technology Solutions delivering quantifiable digital transformation across mission-critical healthcare operations (3.2M members). Currently finalizing Master of Information Technology at Monash University (graduating Dec 2026, WAM 65.7). Proven track record: Avaya-to-Genesys Cloud CX migration across 30,000+ associates and agents, 5% patient engagement improvement, 20% reduction in manual interventions, 95%+ audit compliance maintained. Expertise in real-time systems monitoring, cloud platform modernization, root cause analysis, and infrastructure optimization. AWS CCP certified. Demonstrated leadership mentoring 40+ postgraduate IT students.

CORE COMPETENCIES

Cloud Platforms & Modernization: Genesys Cloud CX | Google Cloud | AWS | Azure MFA | Microsoft 365 | Oracle Cloud Infrastructure (OCI)

Real-Time Systems & Analytics: Netcool Monitoring | Alert Management & Analytics | Root Cause Analysis | Performance Metrics & Dashboarding | DB2 | SQL

IT Operations & Infrastructure: Active Directory | SCCM | Windows/Linux Servers | Citrix Servers | IAM & Identity Management (CyberArk, SailPoint) | Change Management | SLA Management | PowerShell | Docker | Kubernetes

Programming & Development: Java | C/C++ | COBOL | JCL | Kotlin | Firebase | API Integration | SQL | Python | FastAPI | OpenCV

RECENT EXPERIENCE & PROJECTS

HR Administrative Officer | Monash University

August 2026–October 2026

• Casual HR Administrative Officer role (HEW 4, ~10 hrs/week) within the HR Projects team, Office of the Chief Operating Officer & Senior Vice-President, Clayton Campus

Technology & Digital Innovation Intern | Baazar (Fund'ex venture)

September 2026–Present

• Supporting digital platform research, planning, and technical documentation for an upcoming venture; contributing to website/software testing, user testing, and bug reporting under supervision

• Supporting data organisation, reporting, and dashboard/analytics tasks alongside CRM and business process documentation; researching software tools, APIs, and digital platform solutions

• Preparing user guides, workflow notes, and process maps; applying cybersecurity awareness practices, including documentation and basic risk checks, as part of structured team learning tasks

TeaMWork Virtual Intern & Team Co-Lead | Monash-Warwick Alliance

July 2026

• Led AI-driven market expansion strategy; developed segment prioritisation matrix across 3 FM portfolios using analytics

• Quantified financial impact: SGD 4.35M annual savings (Facilities Management), SGD 261K/yr (Commercial), SGD 696K/yr (Universities); identified SGD 2M+ revenue pipeline from 15 target companies

• Applied data analytics and ROI modelling to validate market assumptions and support strategic pilot framework

T&A FLEX Data Entry Assistant (HEW 4) | Monash University

July–August 2026

• Supported enterprise system rollout (Nimbus time & attendance) across Peninsula Campus serving 500+ staff; achieved clean data migration

• Identified and escalated critical go-live dependency issues before system launch, preventing operational disruption

COGNIZANT TECHNOLOGY SOLUTIONS

Programmer | EmblemHealth & ConnectiCare (3.2M members) | Nov 2023–Jul 2024

Real-time Systems Monitoring & Cloud Migration Delivery:

• Managed 50–80+ real-time Netcool alerts per shift; maintained 95%+ Audit Dashboard Score — demonstrating expertise in high-volume alert analytics and incident prioritisation at enterprise scale

• Conducted proactive problem record analysis and root cause analysis to identify recurring system failures; implemented preventative measures that reduced repeat incidents, improving overall system reliability

• Contributed to Cognizant's Avaya-to-Genesys Cloud CX contact center migration (30,000+ associates and agents across 8 lines of business): delivered a 5% increase in patient engagement, 20% reduction in manual interventions per week, and 2% decrease in average handling time — quantifiable proof of impact in cloud-driven digital transformation

• Administered and optimised critical infrastructure: Active Directory, Azure MFA, M365, CyberArk, SailPoint, Windows/Linux servers, and Citrix servers; designed Event Alert Dashboard for real-time performance visibility across enterprise systems

Programmer Analyst | EmblemHealth & ConnectiCare | Apr 2022–Nov 2023

Service Excellence & Process Improvement:

• Resolved 100+ incidents/month within SLA with 100% CSAT score and 95%+ Audit Dashboard Score; earned CSAT Champion award (Sep 2023) for sustained excellence in incident management

• Authored 15+ comprehensive technical SOPs; reduced team onboarding time by 50%+, significantly improving knowledge transfer and operational efficiency

• Recognised with Cognizant Cheers Awards (Sapphire & Amber, 2023) for excellence in delivery, technical depth, and cross-functional collaboration

Programmer Analyst Trainee | EmblemHealth & ConnectiCare | May 2021–Mar 2022

• Completed structured onboarding in enterprise systems stack: COBOL, JCL, DB2, incident management; achieved progressive SLA independence and demonstrated rapid skill acquisition in mission-critical systems

VOLUNTEER & MENTORING ROLES

Microsoft 365 Administrator (Volunteer) | Basava Samiti APAC | Oct 2025–Present

• Manage M365 infrastructure across 8 APAC chapters serving 100+ users; authored 3 SOPs reducing ticket volume by 30–40% through improved self-service documentation

IT Postgraduate Peer Mentor | Monash University | Jan 2026–Present

• Mentor 40+ postgraduate IT students; manage infrastructure for Monash Data & AI Society (1,600+ members); support community growth and peer learning

Student Adviser | Monash Student Communities | Jul 2025–Present

• Mentor a cohort of undergrad and postgrad students through one-on-one check-ins and cluster catch-ups, helping new students navigate university life, and encouraging several of my own mentees to step up into advising themselves

EDUCATION & CERTIFICATIONS

Master of Information Technology | Monash University | Graduating Dec 2026 | WAM 65.7

Bachelor of Computer Applications | University of Madras | 2020 | First Class

AWS Certified Cloud Practitioner | July 2024

IELTS Academic | Band 7 overall

LANGUAGES

English (Proficient) | Telugu (Native) | Tamil (Fluent) | Hindi (Conversational)
